

Teddy for a rescued refugee child

Double knitting, using two strands at a time, size four knitting needles.

Approximate size of teddy is 7cms high.

You can vary the yarn and needle size, but please make sure the knitting is firm (to stop stuffing escaping through holes).

Teddy can be knitted in one colour, or change colours for jumper or head. Remember to match when knitting the back!

Knit as one piece in any stitch you like, fold in half and sew up, leaving space for it to be stuffed later on by volunteers.
